

## COMPLIANCE ENGINEER

Join our team and work on North London's largest waste-to-energy scheme. You will enjoy exciting career prospects with one of the leading global companies in renewable energy and sustainable infrastructures. As a London Living Wage Employer, we offer a competitive salary and benefits package and continued learning and development opportunities within a creative and considerate work environment.

ACCIONA is looking to appoint a **Compliance Engineer** based in our North London Heat and Power Project in Edmonton.

We are committed to securing local employment and welcome applications from residents from **Barnet, Camden, Enfield, Hackney, Haringey, Islington and Waltham Forest**. We welcome applications from both young people and older people looking to make a change in their careers.

### Your role

**Role and Mission:** As a Compliance Engineer for our North London Heat and Power Plant EPC (Engineering, Procurement, and Construction) project, you will play a crucial role in supporting and ensuring that the project adheres to various regulatory and sustainability standards.

Your responsibilities will encompass overseeing preparation of discharge and compliance with DCO (Development Consent Order), supporting the management of BREEAM (Building Research Establishment Environmental Assessment Method), assisting the CDM manager (Construction Design and Management) on ongoing Engineering and Construction compliance, coordinating with Building Control authorities, and maintaining the Carbon model for the project.

#### Main responsibilities:

##### 1. Development Consent Order (DCO) Compliance:

- Monitor and ensure compliance with all requirements outlined in the Development Consent Order.
- Collaborate with project teams to address any deviations and implement corrective actions.
- Assist overseeing the development of re-discharge reports to be issued as part of DCO.

##### 2. BREEAM Management:

- Assist with the implementation and assessment of BREEAM standards for environmental sustainability.
- Work closely with design and construction teams to integrate sustainable practices into the project.

##### 3. CDM Support:

- Assist the CDM Manager in providing support from Engineering to Construction implementation on Construction Design and Management (CDM) regulations.

##### 4. Building Control Coordination:

- Interface with local Building Control authorities to ensure that the project complies with relevant building regulations.

<p><b>Acciona's Core Behaviours / Values</b></p>	<p>We have Core Behaviours and expectations of all our People and these sit at the very centre of Who we are, what we stand for, how we work as a great team, and how we deliver excellent results. Our Core Behaviours are Openness, Self-Awareness and Awareness of Others, Inclusion, Forward Looking, Constructive Conflict, Alignment, Accountability, and Value Focus.</p> <p><b>Openness:</b> Parties must be honest in their dealings with each other, open to feedback, and must commit to creating a culture of openness that encourages everyone to proactively share information and to raise and discuss issues directly as opposed to ignoring or denying them.</p> <p><b>Self-Awareness and Awareness of Others:</b> Achieve Results - The ability to focus the activity towards the achievement that brings value to ACCIONA. Organization and Planning - The ability to identify, evaluate and program what actions must be completed to reach a certain goal, how to carry out those actions, and what are necessary resources to achieve the final objective.</p> <p><b>Constructive Conflict:</b> Partners use problem-solving methods that promote a collaborative atmosphere and avoid fostering covert, overt, conscious, or unconscious animosity, conflict, or competitiveness. All partners raise and discuss issues directly as opposed to ignoring or denying them; and respond to differences in perspective positively. Leaders actively harness the opportunities that differences present, for the improvement of the project and strengthening of long-term relationships.</p> <p><b>Inclusion:</b> Creating a positive work environment for all, through respect and dialogue. Partners actively create a positive work environment where everyone is supported and encouraged to bring their 'whole self' to work. All partners show their commitment to inclusion through open dialogue about advantage and systemic bias, challenging assumptions, and showing curiosity, respect, and tolerance towards others. Leaders request and celebrate diverse thinking and use their influence to highlight the voices.</p> <p><b>Forward-Looking:</b> Partners behave plan-fully, taking the schedules and priorities of one another into consideration. Partners take a forward-looking approach that does not dwell on past issues or conflicts, other than to ensure that past lessons are learnt to maximise the effective delivery of services across the NLHPP. Leaders undertake both tactical management and long-term strategic planning, to drive the programme forwards collectively.</p> <p><b>Alignment:</b></p>
--	--

	<p>Partners enter a collaborative partnership with a ‘one-team’ approach and show commitment to the Programme’s Vision and outcomes. All partners actively seek and shape shared goals that align with the Vision and outcomes, and these goals are mutually beneficial. Team members understand how their own contribution relates to the Vision and outcomes. Leaders model alignment by actively relating tactical decisions to overall vision and outcomes.</p> <p><b>Accountability:</b> Whilst collaboration aims to create shared goals, partners are also accountable for their own individual contributions to these goals. Partners take accountability for their choices, actions, or inactions, including intended and unforeseen consequences of those. All partners admit to and work to resolve any mistakes, and priorities achieving solutions to problems or issues over seeking to blame any other Party. Leaders continuously and proactively clarify roles, responsibilities, and expectations, especially at project and function interfaces.</p> <p><b>Value Focus:</b> Partners acknowledge that innovation and quality depend upon effective collaboration, and approach project work accordingly. All partners proactively draw on the diverse knowledge, experiences, and perspectives of one another, and are open to learning from others to deliver better quality, innovation, and value to the project. Leaders recognise the value of communication and collaboration to the outcome and enable this through resources, flexibility, and empowerment of others.</p>
